

There is no date on this document. HMS Firebrand was launched in 1694 and wrecked in 1707, Cambridge was 80-gun third rate ship of the line launched in 1695. She was rebuilt in 1715 and broken up in 1750.

Which places this document between 1695 and 1707, however, Strombolo was rebuilt in 1704, so this may well be the date of this document.
